Report

Seven Day 'First Aid Training Camp' was organized in the college campus from 2nd March to 9th March 2019. The objective of the camp was to preserve life, prevent injury from getting worse, relieve pain, and protect the unconscious. The main goal of this training was to create trained First Aid service providers. The principal of the college and counselor of YRC Unit arranged the training camp. Students including thirty YRC volunteers attended the training programme. The camp was inaugurated by our Principal Dr. Narender Singh and Sh. Sanjay Kumar from District Red Cross Branch, Sonipat, gave training to the students. He introduced about the aim of First Aid, definition and types of bandages, wound care, how to manage accidents and how to perform CPR. Students learned how to treat an unconscious and breathing casualty and manage fractures, grazes, bleeding and burns. First Aid generally consists of a series of potentially life saving techniques that an individual can be trained to perform with minimal equipment. The programme ended with vote of thanks by YRC Counselor, Dr. Urmila Hooda.

Report on Food Distribution Program

NSS Unit (I and II) organised a **Food Distribution Program** for vulnerable families affected by the Covid -19 pandemic. As the lockdown happened, the markets were shut down, so they couldn't stock food earlier. We all are aware of the problems that the poor people have to face. The event started around 10 am in the morning, and it was a task of courage to go outside but the enthusiasm and participation of the volunteers made it possible to conduct such an event. We reached the target of our distribution of food items to the needy at different places. Principal Dr. Narender Singh of our college was also very cooperative to promote such initiatives and further he helped in organising the event. This was an initiative to do a little for the society.

REPORT on Necessity of Janta Curfew

NSS Units I and II organized an enlightening online lecture on the "Necessity of Janta Curfew" on March 25, 2020, in response to the imperative need to minimize the spread of the COVID virus. Program Officers, Dr. Usha Dahiya and Dr. Manita, delivered a comprehensive lecture to the volunteers.

Dr. Usha Dahiya elucidated that the implementation of Janta Curfew during the COVID-19 pandemic stood as a crucial measure aimed at curtailing the spread of the virus. This collective effort sought to break the chain of transmission, safeguard vulnerable populations, and alleviate the strain on healthcare systems. The self-imposed restriction not only showcased unity but also instilled a sense of responsibility among citizens. It provided authorities with valuable time to enhance preparedness, increase testing capacities, and reinforce medical infrastructure.

The Janta Curfew acted as a proactive step in mitigating the impact of the pandemic, highlighting the significance of individual sacrifices for the collective well-being.

REPORT on webinar on "The Effect of Covid-19 on the Environment."

NSS Units I and II orchestrated an insightful webinar on "The Effect of Covid-19 on the Environment." During the session, program officers shared their perspectives, acknowledging the multifaceted effects of the pandemic on our surroundings. They elucidated that the COVID-19 crisis had presented both positive and negative implications for the environment.

The positive aspects were evident during lockdowns and restrictions, which led to a notable reduction in industrial activities and transportation. This resulted in temporary improvements in air quality and a decrease in carbon emissions. The streets witnessed fewer vehicles, leading to significant reductions in various pollutants, offering a glimpse of the potential benefits of reduced human impact on the environment.

However, the pandemic also posed challenges to environmental sustainability. The increased use of single-use plastics, a surge in medical waste, and the rise in online shopping contributed to environmental concerns, highlighting the delicate balance

needed between public health and environmental conservation.

Furthermore, the webinar shed light on the shift in focus towards public health, diverting attention from some ongoing environmental initiatives. This shift slowed down progress in specific areas, emphasizing the need to maintain a comprehensive approach that considers both health and environmental well-being.

In essence, the pandemic underscored the intricate interplay between human activities and the environment. It served as a stark reminder of the importance of finding equilibrium between economic pursuits and environmental preservation for a resilient and sustainable future. The lessons learned from this period can guide us towards adopting practices that promote both human well-being and environmental health.

Report on Personality Day

NSS Unit (I and II) organised “**Personality Day**” on 5th March 2023. Program Officers Dr. Usha Dahiya and Dr. Manita started the programme oath taking ceremony of the volunteers. As the third major component of education, the NSS is a part of our academic, social, and personal lives. It enables students to actively off time and talents to the betterment of society and country, thereby assisting in the development of their personalities. Personality Day is a celebration that acknowledges the uniqueness and individuality of each person. It serves as a reminder that diversity in personalities is what makes our world rich and vibrant. On this day, people come together to appreciate and embrace the diverse qualities that define us as individuals. It's an opportunity to reflect on the importance of self-awareness and acceptance, fostering an environment where everyone feels valued for who they are. Personality Day encourages us to celebrate the quirks, strengths, and differences that collectively contribute to the tapestry of humanity. It's a day to promote understanding, respect, and unity, emphasizing that our unique personalities should be embraced as assets that enrich our shared human experience.
